

AUSSIBLUÉ

(Digitaria didactyla syn D. swazilandensis)

ABOUT THIS TURF

Aussiblué is the new generation of turf ideal for Queensland conditions. It has been cultivated and sold commercially for over 10 years quickly becoming a favourite with South East Queensland homeowners and professional landscapers alike.

Similar to Queensland Blue Couch, Aussiblué is a medium leaf turf which is extremely hardy making it ideally suitable to high wear areas whilst maintaining a gorgeous soft carpet like texture, feel and appearance. It is shade tolerant, low maintenance, naturally weed resistant and thrives in our sub tropical climate.

Shade Tolerant

Grows well in shaded areas

High Traffic Tolerant

Very hard wearing

Required Sunlight

Min. 6 hours of direct sun daily

WHY CHOOSE AUSSIBLUÉ

- **Stunning appearance; from the same family as Queensland Blue Couch**
- **Ideal for heavy traffic areas where a hardy lawn is needed**
- **Soft touch lawn – you can feel the difference**
- **Excellent weed suppression**
- **Deep roots means less water needed to maintain its appearance**
- **Proven shade tolerance**
- **Able to withstand dry spells comfortably and recovers quickly after watering**

We are growing.
