

## SWEET SMOTHER (*Dactyloctenium australe*)

### ABOUT THIS TURF

Sweet Smother, sometimes known as Durban, is an excellent choice for projects where shading is the predominant consideration. It is the most shade tolerant of all turf varieties sold in South East Queensland.

This variety has a very soft, medium broad leaf and will withstand average wear. Sweet Smother will provide an attractive lawn in either full sun or semi-shaded areas and grows best on well-drained areas.

#### **Drought Tolerant**

Adapts to the harsh environment

#### **Weed Tolerant**

Resistant to disease and weed invasion

#### **Required Sunlight**

Min. 2 hours of direct sun daily

### WHY CHOOSE SWEET SMOTHER

- Sweet Smother needs a minimum of approximately 2 to 3 hours of direct sunlight per day or filtered sunlight for a longer period.
- Soft in texture with a broad leaf
- Sweet Smother is lime green in colour in full sun but the colour darkens when it is grown in shade or when fertilised
- It will withstand average wear – suitable for normal home lawn
- Ideally suited to climate conditions of South East Queensland
- Resistant to disease
- Low maintenance
- Most shade tolerant variety on the market
